Worldwide Partner of the Year
Innovation Partner of the Year

SMC.
A DGS COMPANY

Boost your **business**,
with the most flexible **Open Source** platform in the world

AWARDED SINCE 2012

2 EMEA Partner of the Year, **1** Worldwide Partner of the Year,
1 Innovation Partner EMEA and **6** Community Excellence Liferay
Liferay Platinum Partner for over 10 years

Liferay is the Enterprise Open Source platform that allows you to manage the digital experience of clients, partners, retailers, and employees at 360°.
With the Digital Experience Platform, it is possible to create easily customizable portals, intranets, and B2B stores.

Advanced roles and permissions enable an easy management of numerous marketing and IT teams, noticeably accelerating sites, landing pages, digital communication, and sale touchpoints' time to market.

The solution is available On-Premise, on Cloud platforms as a Service as Software.

Ready to use solutions to make your business faster

Thanks to Digital Experience Platform, we can develop unique and innovative solutions, scalable and embeddable with your software, that accelerate your business and resolve concrete issues.

Collaboration for the extended company

Spaces is an Enterprise Collaboration solution that allows you to create a collaborative workspace and share information like Wiki and Forum. The solution is integrated with Task, Calendar, Email, Chat, and videoconference app. It's your access point for each business application and is essential for the Digital Transformation.·

ECM Powered by Liferay

The solution allows you to acquire, search, archive, share, and distribute all your content easily. Our Enterprise Content Management solution is compliant with the strategy for the digitalization of company processes defined by the European Commissioner for the Digital Single Market. It is scalable and personalizable and retains the data respecting the GDPR.

Liferay Commerce Sales Mobile

Liferay Commerce Sales Mobile is a versatile and multiplatform app. It allows your sales force to check the product catalog and your customer directory, even offline. It's a ready-to-use solution that integrates with your CRM and Commerce, enabling you to manage discounts, orders, and remote assistance.

Liferay Iot Experience

The platform enables organizations and companies operating in different contexts to turn the data extracted from physical and virtual objects and industrial plants into strategic information. The solution collects, memorizes, and elaborates all the general data, generated from connected devices, and enriches them by relating them to those coming from internal and external systems.

Customized modules

We specialize in developing customized solutions to integrate into your Liferay Portal and expand their functionality.
From managing calendars to sending personalized emails, from organizing questionnaires to share files between users.

Applications, portlets and Plugin

Accelerate time-to-market and extend the functionality of your Liferay Portal using a plugin, portlet, and graphic themes. All ours app are available on Liferay's Marketplace.

Open K9

OpenK9 is a complete Cognitive Enterprise Search solution that fits all your needs. Powerful, Modern, and Flexible, it employs Machine Learning to enrich your data and give the best experience
